

PREPARED FOR YUSUF · ERKAN AUTO CARE

Let's Give Erkan Auto Care The Digital Presence It Deserves.

Erkan Auto Care runs on word-of-mouth and a reputation Yusuf built by hand. This proposal is about giving that reputation a digital home: a new website, a booking system, and a growth plan that keeps working after launch.

WHERE THINGS STAND

Livermore Already Trusts The Shop. Let's Help Everyone Else Find It Too.

Word of mouth has carried Erkan Auto Care this far. Yusuf built real loyalty through honest pricing and hands-on expertise. This proposal adds the digital infrastructure to match.

Where We're Starting

There's no website today — just word-of-mouth and a Google listing. Reviews are strong, but nothing online reflects the quality of the shop.

The Approach

Build a mobile-first website with real booking, then layer on a monthly retainer that keeps content, reviews, and visibility growing.

THE OPPORTUNITY

Strong Reputation. No Digital Front Door.

Erkan Auto Care has the reputation to compete with any shop in Livermore. The gap is entirely digital. Here's what's holding new customers back today.

No website

Drivers can't find hours, services, or a way to book online. Everything today runs through phone calls and word-of-mouth.

No booking system

Every appointment requires a phone call during business hours. There's no way to request a time online, day or night.

Reviews aren't centralized

Strong word-of-mouth doesn't show up anywhere a new customer would actually look before choosing a shop.

No search visibility

Erkan Auto Care won't show up for "brake repair Livermore" or similar searches — today, or after launch without ongoing work.

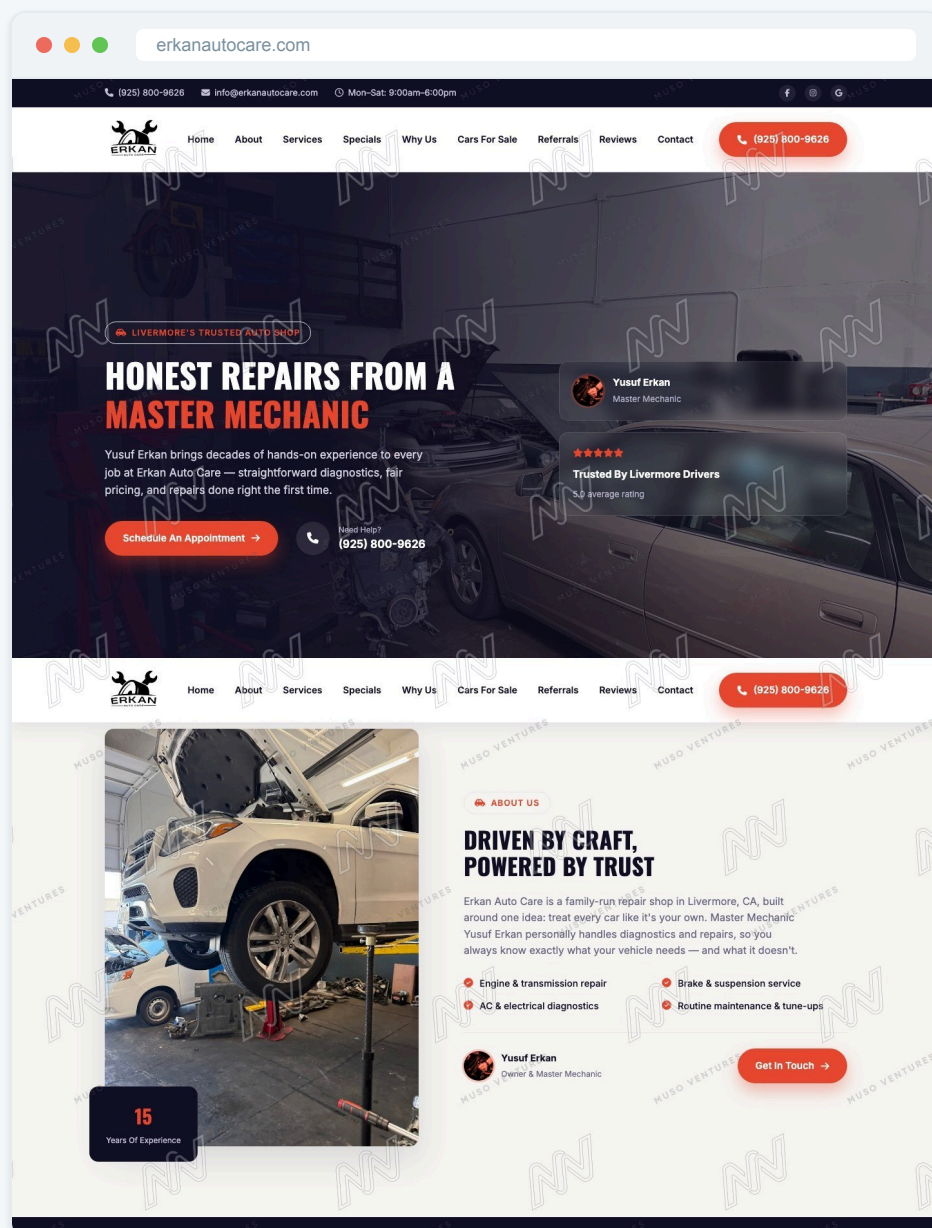

None of this is a knock on the shop — it's an opportunity. The work is already good. It just isn't visible yet.

THE CONCEPT

Landing Page Design.

A modern, mobile-first homepage built around Yusuf's reputation — real shop photography, live booking, and instant credibility above the fold.

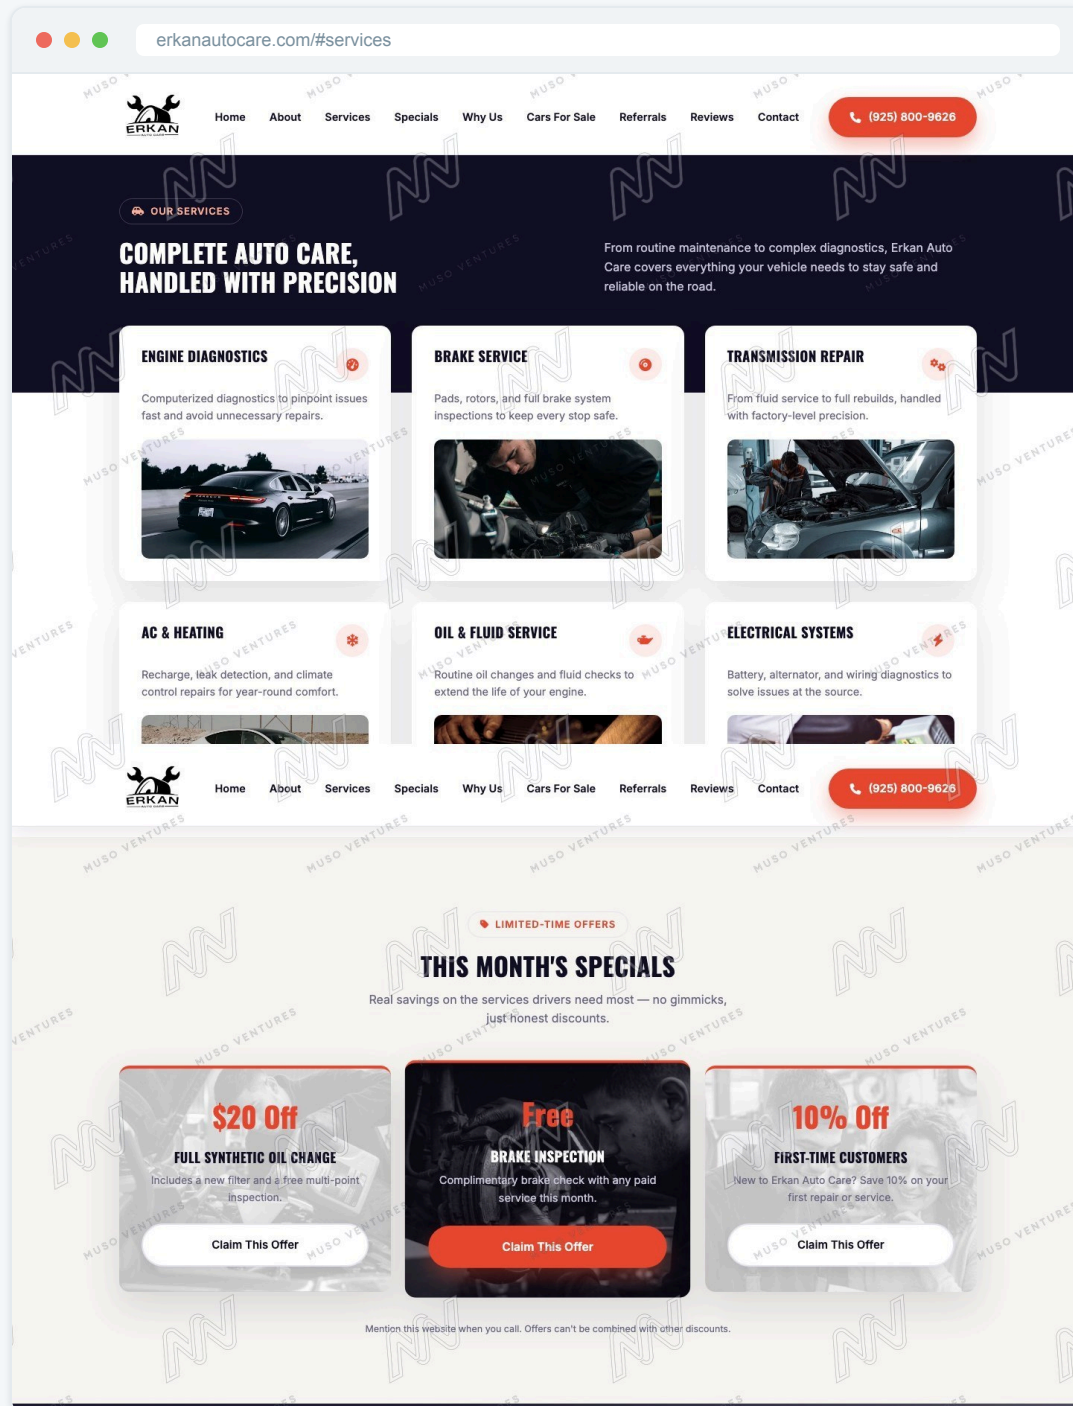

Concept preview — watermarked until approved. Final delivery is watermark-free.

THE CONCEPT

Landing Page Design, Continued.

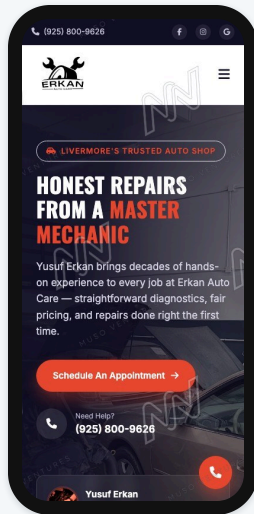

Scrolling past the hero and about section: every core service laid out with icons and real shop photos, followed by rotating monthly specials that drive first-time visits.

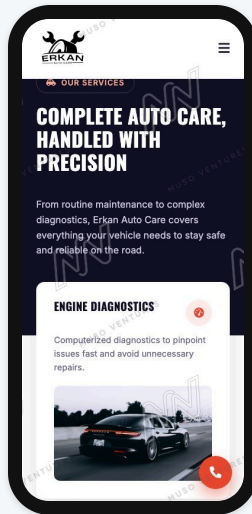

THE CONCEPT

Mobile Site Design.

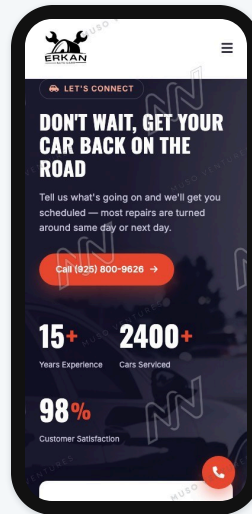

Most Erkan Auto Care customers will find the shop from a phone. Every screen is designed mobile-first, not squeezed down from desktop.

THE CONCEPT

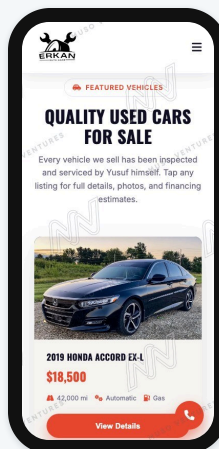

Used Car Widget.

Erkan Auto Care already sells inspected used cars on the side. This widget turns that into a second revenue stream — browsing, detail, and inquiry, all in one flow.

STATE 1 · BROWSE INVENTORY

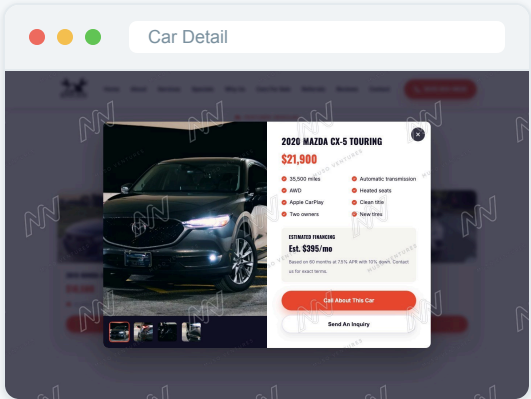

MOBILE

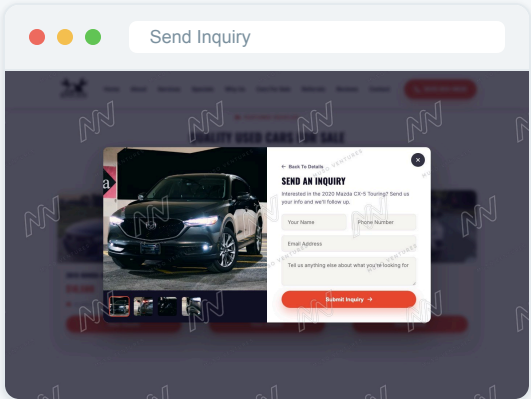

THE CONCEPT

Used Car Widget, Continued.

Tapping a listing opens the full detail view with a financing estimate, then a one-tap path to send an inquiry.

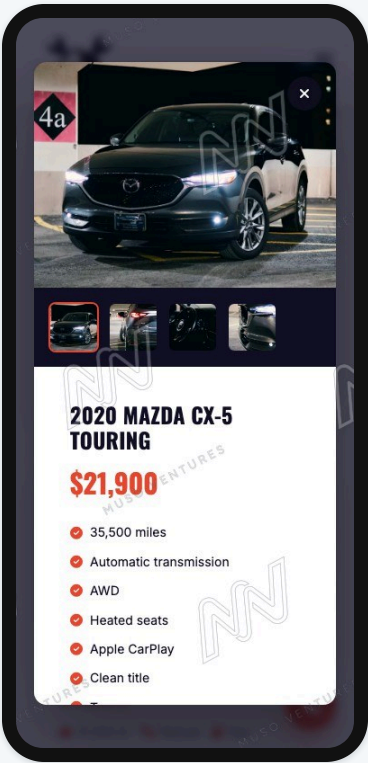

STATE 2 · DETAIL + FINANCING ESTIMATE

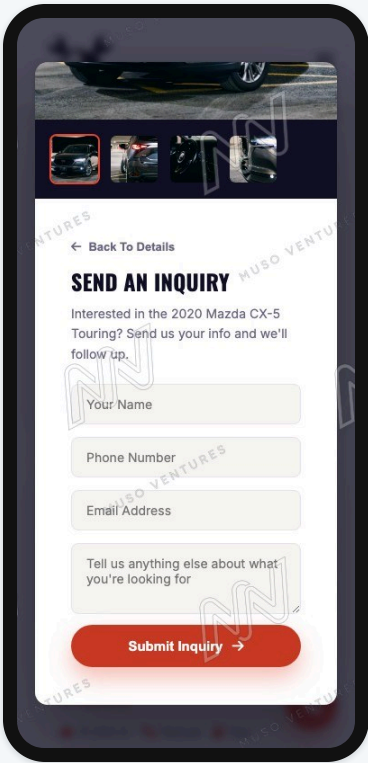

STATE 3 · SEND AN INQUIRY

MOBILE · INQUIRY

THE CONCEPT

Referral Widget.

A QR-based referral flow turns happy customers into a repeatable acquisition channel — no punch cards, no manual tracking.

STATE 1 · HOMEPAGE REFERRAL SECTION

THE CONCEPT

Referral Widget, Continued.

Every referral card and QR code points straight to this dedicated landing page — trackable, and built to convert on a phone screen.

High-Value Add-Ons.

Pitch these separately. Each one solves a specific, visible problem you can see and feel.

Review Generation System

ONE-TIME SETUP

Post-visit text with a direct Google review link — the fastest way to turn great service into visible Google ratings.

“Near Me” Landing Pages

ONE-TIME

Dedicated pages for searches like “brake repair Livermore” that capture traffic the homepage alone can’t.

Inventory Refresh Subscription

MONTHLY

Fresh photography and listings each time a used car arrives, keeping Cars For Sale active instead of stale.

Google Ads Launch

SETUP + MONTHLY SPEND

Paid placement for high-intent searches — capture the customer the moment they search for a repair, not just a brand.

Video Testimonial Package

PRODUCTION + EDITING

Short-form video of Yusuf and real customers, cut for Instagram, Google Business, and the site itself — the highest-trust content format available.

INVESTMENT SUMMARY

What It Looks Like To Get Started.

How this works: Phase 1 is a flat \$3,000 one-time project. Phase 2 is a simple month-to-month retainer. No long-term lock-in.

NEXT STEPS

Approve The Concept And We Get To Work.

Budget isn't locked in yet, and that's fine. Every tier builds on the same foundation. We can start where it makes sense and grow the retainer as it proves itself.

01

Choose a tier.
Foundation, Growth, or
Full Presence.

02

Approve the concept.
Phase 1 kicks off
immediately.

03

Move into Phase 2
as the retainer continues.
